Century Casinos, Inc. Announces First Quarter 2011 Results

Colorado Springs, Colorado – May 13, 2011 – Century Casinos, Inc. (NASDAQ Capital Market® and Vienna Stock Exchange: CNTY) today announced its financial results for the three months ended March 31, 2011.

First Quarter 2011 Highlights

- Net operating revenue was \$17.1 million, a 21% increase compared to the three months ended March 31, 2010.
- Net earnings per share was \$0.02 compared to \$0.01 for the three months ended March 31, 2010.
- Adjusted EBITDA* was \$2.5 million, a 27% increase from the three months ended March 31, 2010.

Amounts in thousands, except share and per share data

	For the Three Months Ended March 31,		
	2011	2010	% Change
Consolidated Results:			
Net operating revenue	\$17,115	\$14,137	21%
Earnings from operations	756	350	116%
Net earnings	364	130	180%
Adjusted EBITDA*	\$2,524	\$1,984	27%
Basic and diluted earnings per share:			
Net earnings	\$0.02	\$0.01	100%
Weighted-average common shares:			
Basic	23,711,176	23,542,576	
Dilutive	24,001,288	23,759,999	

“We are very pleased with our performance for the first quarter, especially when considering that each of our operations posted revenue increases and overall earnings from operations more than doubled,” said Erwin Haitzmann and Peter Hoetzing, Co-Chief Executive Officers of Century Casinos. “Initial results for the first half of the second quarter indicate further improvement”, they continued.

First Quarter 2011 Results

Net operating revenue increased by \$3.0 million or 21% for the three months ended March 31, 2011 compared to the three months ended March 31, 2010. The increase in revenue is partially attributable to the addition of the Century Casino Calgary, which contributed an additional \$0.8 million in net operating revenue during the three months ended March 31, 2011 compared to the prior year quarter. In addition, \$0.8 million in revenue was added primarily by the additional seven ship based casinos in operation for the three months ended March 31, 2011 compared to the prior year quarter. Revenue in Edmonton, Central City and Cripple Creek also increased by \$0.4 million, \$0.2 million and \$0.6 million, respectively from the three months ended March 31, 2010. Finally, the increase can be partially attributable to a 5% increase in the average exchange rate between the U.S. dollar and Canadian dollar.

*See discussion and reconciliation of Non-GAAP financial measures in Supplemental Information below.

Total operating costs and expenses increased by \$2.5 million or 18% for the three months ended March 31, 2011 compared to the three months ended March 31, 2010. Total operating costs and expenses increased by \$1.1 million at the Century Casino Calgary during the three months ended March 31, 2011 compared to the prior year quarter due to increased marketing expenses, the addition of a player's club point redemption program, additional staffing costs in order to provide improved customer service and the 5% increase in the average exchange rate between the U.S. dollar and Canadian dollar. In Canadian dollars, total operating costs and expenses in Calgary increased by \$1.0 million or 58% for the three months ended March 31, 2011 compared to the prior year quarter.

Total operating costs and expenses also increased by \$0.5 million compared to the three months ended March 31, 2010 as a result of higher concession and annual fees paid to cruise ship operators for the rights to operate ship based casinos. Total operating costs and expenses at our Colorado properties increased by \$0.4 million for the three months ended March 31, 2011 compared to the prior year quarter due to increased gaming taxes as a result of higher gaming revenues and increased staffing costs in order to provide improved customer service. Finally, total operating costs and expenses increased by \$0.2 million at our property in Edmonton due to the 5% increase in the average exchange rate between the U.S. dollar and Canadian dollar. In Canadian dollars, total operating costs and expenses in Edmonton remained flat at \$4.2 million for the three months ended March 31, 2011 compared to the prior year quarter.

Net earnings increased by \$0.2 million or 180% for the three months ended March 31, 2011 compared to the three months ended March 31, 2010. The increase is due to increases in earnings from operations at our Edmonton, Central City and Cripple Creek properties offset by losses from operations at our Calgary property and the 5% increase in the average exchange rate between the U.S. dollar and Canadian dollar.

Net earnings per share ("EPS") increased to \$0.02 for the three months ended March 31, 2011 from \$0.01 for the three months ended March 31, 2010.

CENTURY CASINOS, INC. AND SUBSIDIARIES
SUPPLEMENTAL INFORMATION

* The Company defines **Adjusted EBITDA** as earnings (loss) before interest, income taxes, depreciation, amortization, pre-opening expenses, non-cash stock based compensation charges, asset impairment costs, gains (losses) on disposition of fixed assets, discontinued operations, realized foreign currency gains (losses) and certain other one-time items. Intercompany transactions consisting primarily of management and royalty fees and interest, along with their related tax effects, are excluded from the presentation of net earnings and Adjusted EBITDA reported for each property. Not all of the aforementioned items occur in each reporting period, but have been included in the definition based on historical activity. These adjustments have no effect on the consolidated results. Adjusted EBITDA is not considered a measure of performance recognized under accounting principles generally accepted in the United States of America. Management believes that Adjusted EBITDA is a valuable measure of the relative performance. The gaming industry commonly uses Adjusted EBITDA as a method of arriving at the economic value of a casino operation. Management uses Adjusted EBITDA to compare the relative operating performance of separate operating units by eliminating the above mentioned items associated with the varying levels of capital expenditures for infrastructure required to generate revenue, and the often high cost of acquiring existing operations. EBITDA (Earnings before interest, taxes, depreciation and amortization) is used by the Company's lending institution to gauge operating performance. The Company's computation of Adjusted EBITDA may be different from, and therefore may not be comparable to, similar measures used by other companies. Please see the reconciliation of Adjusted EBITDA to earnings (loss) from continuing operations above.

** The Company defines **Adjusted EBITDA margin** as Adjusted EBITDA divided by net operating revenue. Management uses this margin as one of several measures to evaluate the efficiency of the Company's casino operations.
